

A large, modern glass-fronted building, likely a shipyard or showroom, is shown at dusk. The building's interior is illuminated, revealing several boats on display. The sky is a mix of blue and orange, suggesting sunset. The building's structure is a complex network of dark metal beams. A large, illuminated "N" logo is visible on the glass facade. The text "North Silver" is visible on the building's exterior in the distance.

**North Silver is one of the largest and most successful manufacturers of recreational boats in Russia.**

In 18 years the company has come a long way from being a dealer to becoming a large shipyard with a full cycle of production composite and light-alloy boats, having accumulated an extensive experience. The North Silver product range includes over 30 serial models of 5 – 15m length intended for recreation, sport fishing, traveling and performing special tasks..

NORTH SILVER IS A FAMILY AND FULLY FINANCIALLY INDEPENDENT SHIPYARD.

Our priorities are the quality of each single manufactured boat and a practical design, based on the experience and users' wishes. It's not easy to be innovative in this segment, but we do everything possible to create not only quality, but also pleasant and easy to use boats.
